

ACC Meeting

April 24th, 2015

Meeting Minutes

- ❖ Jeff Whitworth Presentation
 - Can do managed encryption → ability to retrieve passwords; have yet to turn on until they are assured that accounts are up to date etc.; have recommend to move forward with managed encryption; new Mac's will encrypt your harddrive; want clear guidelines and a clear understanding (transparency)
 - Questions: refreshing of passwords → cannot use hard resets for passwords; move to a different solution for refreshing passwords\ certificate vs. password: certificate relies on password hash\ ability to encrypt and decrypt\ free programs based on PGP: no key escrow\ what is the ultimate intent: to encrypt all computers\ sharing between devices\ GCN Users: bit locker their harddrives→ they are responsible for the recovery (unmanaged); recommended turning on managed bit locker and encrypted file systems *in the near future* → currently under security review\ encryption of email: encrypted at transport\ sending student grades via email\ longevity of access: managed encryption allows access despite upgrades and changes
 - Follow Up Conversation:
 - Encryption of Email: shared key with receiver and sender
- ❖ Reports from Liaisons
 - IOC Meeting: Where the Google translate button should appear on the webpage? → suggested it should be at the top of the page; responsive wrapper (UNCG Tomorrow); accessibility issues
 - Security Committee: Being restructured; chaired by Chuck Curry
- ❖ Charge Edits
 - Second sentence: remove “will”; change to “forwards”
 - Remove “students”
- ❖ Membership Changes
 - Suggested representatives from Humanities, Social Sciences & Sciences
- ❖ Discussion Items for the Fall → Action Items
 - Invite someone from the Math department to discuss public/ private keys
 - Explore the makeup of the committee
