ACC Meeting: Friday, 12/01/17 Minutes

Secretary: Frances Clerk

Attendance: Aprille Black, Gloria Thornton, Frances Clerk, David Remington, Deborah Lekan, Fatih Ogus, Daniel Rice

Minutes were not reviewed for the November 10th meeting as they were not available.

Aprille Black provided an update on the Online Learning Project and discussed the first cohort of Online Faculty to participate in the project. It has been a positive experience for those involved in the planning and design of the course. We should have two cohorts complete the course during Spring 18 semester. Revisions will be made based on the summative assessment conducted at the end of the first cohort’s completion of the course. Amy Brown from the UTLC will be invited to present our next update on the Online Learning project.

Gloria Thornton provided an update on the work of the Academic Technology Planning Council. She answered questions about priorities and estimated time frames for work to be conducted.

Polling Software: What polling software has been adopted by the UNCG? Are we using one solution or many? We will explore this further.
